

SRUTHI NUKALA

Hyderabad, India | +91 89774 15695 | [Gmail](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data- focused graduate skilled in Excel, SQL, Power BI, Power Query, Power Pivot, and DAX. Experienced in data cleaning, exploratory data analysis (EDA), dashboard development, KPI tracking, data visualization, and business reporting. Built analytics projects across sales, customer behavior, and healthcare datasets to generate actionable insights and support data-driven decision-making.

TECHNICAL SKILLS

Excel & Reporting: Power Pivot, Power Query, DAX, Pivot Tables, Lookup Functions, Conditional Formatting, Dashboarding

Business Intelligence: Power BI — Dashboards, DAX Measures, Data Modeling, KPI Cards, Drill-through, Data Visualization

Database & SQL: SELECT, JOINS, GROUP BY, Subqueries, Aggregations, Window Functions, CTEs

Python & EDA: Pandas, Numpy, Matplotlib, Seaborn, Data Cleaning, EDA

Tools: GitHub, Google Sheets, Jupyter Notebook, MS PowerPoint

PROJECTS

Sales Performance Analytics Dashboard | [Excel](#) · [Power Query](#) · [Power Pivot](#) · [DAX](#)

GitHub: <https://github.com/sruthinukala/Sales-Performance-Dashboard>

- Analyzed **4 years** of Superstore sales data across categories and regions using Excel Power Pivot, Power Query, and DAX formulas
- Built **5 interactive reports** with slicers; identified Furniture margin at **2.49% vs Technology at 17.40%**, enabling discount policy recommendations
- Flagged Central region's **35.77% discount rate** as driver of 7.92% profit margin and pinpointed **₹29.46K losses** in Machines & Tables subcategories

Customer Behavior Analysis & Segmentation | [Python](#) · [SQL](#) · [Power BI](#) · [Excel](#)

- Analyzed **5,000+ customer transaction records** across demographics, product categories, and subscription types to uncover purchase patterns
- Segmented customers into **4 behavioural groups** using SQL aggregation and python analysis based on spending and engagement patterns using Python Pandas and SQL aggregations
- Developed Power BI dashboards monitoring **6–8 KPIs** including average order value, repeat purchase rate, and category revenue share

Hospital Emergency Room Analytics Dashboard | [Power BI](#) · [Excel](#) · [Healthcare Analytics](#)

- Analyzed **5,000+ ER visit records** to evaluate patient flow, wait times, admission trends, and departmental workload distribution
- Identified **20–30% peak demand periods** and high-load departments through time-series trend analysis on operational data
- Built Power BI dashboards tracking **7 operational metrics** — average wait time, bed occupancy, admission-to-discharge ratio — to support resource planning

EDUCATION

- Bachelor of Commerce (Computers)** 2022 – 2025
- Veeranari Chakali Ilamma Women's University, Hyderabad | CGPA: 8.10 / 10
- Intermediate — Computer Science (Vocational)** 2020 – 2022
- Government Junior College for Women, Khammam | CGPA: 9.4 / 10
- SSC — Secondary School Certificate** 2019 – 2020
- GHS Rajendra Nagar, Khammam | CGPA: 10 / 10

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte (via Forage) 2025
- Data Visualisation: Empowering Business with Effective Insights — Forage 2025
